

- ▶ Bonded top cover helps transfer impact forces outward
- ▶ High-density composite core absorbs impact and slows forces
- ▶ Non-slip base stays where needed
- ▶ Tapered floor perimeter helps maintain staff and patient safety

The Bedside Guardian™ Fall Mat helps minimize fall-related injuries.

The OnCare™ Bedside Guardian™ provides a comprehensive solution that lowers patient trauma and reduces fall-related expenses. Structural features include a bonded top cover to help transfer impact forces outward, a high-density composite core to absorb impact, a non-slip base to secure the mat, and a tapered ground perimeter to help maintain staff and patient safety. An additional Nite-Glo™ option makes the border of the mat stand out, even in a dimly lit room.

Optional Sizes

- 24" x 70"
- 36" x 70"
